Quick Tab II does not guarantee color matching or ink density on JPEG, PDF screen or contract color proofs to the final printed piece. These types of proofs, while having a reasonable likeliness to the color, are more for text accuracy, image proportion and placement. Differences in equipment, pressroom operations, substrates and types of ink cause variations between proofs and the completed job. **Only a press proof will represent the final print job.**

**Composition Disclaimer:** Please note there will be no charge to all Print Ready Files. Electronic art that is not Print Ready will be subject to composition fees. Composition charges can be determined at time of quote by providing a copy of what needs to be designed. If copy is not available we can roughly estimate a fee based on \$45.00 per hour.
