

# Quick Tab II, Inc.

800/332-5081 • 419/448-6622 • FAX # 419/448-6627

In order to process your customer's order, we must have an actual sample of your check with the correct MICR line or this MICR specification sheet filled out. Starter checks, counter checks, deposit slips, etc., are not accepted because they do not reflect the appropriate positioning of the numbering.

Please help us do things right the first time around. Faxing often causes MICR numbers to appear distorted - 7's look like 1's, 8's look like 5's, etc. If you would kindly use this enlarged MICR spec sheet when faxing orders, we will do our best to keep both you and your customer happy.

Upon request we would be pleased to provide you with a MICR gauge template. Call 1-800-332-5081 and ask for Customer Service.
